Teacher Comment

Kazeem has shown excellent attendance throughout the term, maintaining a perfect record of 100%. However, it is concerning that his quiz average is quite low at 18, and he has not completed any assignments, resulting in an overall course progress of only 20%. It is essential for Kazeem to engage more actively with the course material and seek assistance when needed. I encourage him to take advantage of available resources and support to improve his understanding and performance in the next term.
